this early works containing four tales is a fascinating novel of the  
period and still an interesting read today many of the earliest books  
particularly those dating back to the 1900 s and before are now  
extremely scarce and increasingly expensive we are republishing these  
classic works in affordable high quality modern editions using the  
original text and artwork

2026 is not just a year it is a moment of divine interruption throughout scripture there are moments when god does not remain hidden he steps forward intervening openly in the affairs of humanity in those moments systems are shaken truth is exposed and neutrality is no longer an option in 2026 the year god steps forward dr mishael carson offers a compelling prophetic exploration of a year marked by divine manifestation spiritual exposure and decisive alignment drawing from biblical patterns prophetic symbolism and theological insight this book reveals how god acts when history reaches critical thresholds and what that means for believers living in uncertain times this is not a book of speculation or fear it is a call to discernment preparation and courageous faith as heaven breaks through earthly systems readers are invited to recognize the signs of the times understand god s timing and position themselves wisely for a season in which truth will stand compromise will be challenged and destinies will be clarified 2026 will not reward indecision it will reveal alignment

this book addresses the main challenges faced today in implementing the nearly zero energy buildings nzeb concept the book starts with a chapter that addresses problems related to the energy demand and renewable energy sources available in the built environment along with the restrictions and opportunities in developing sustainable efficient and affordable solutions also gaining aesthetic and architectural acceptance advanced solutions to cover the energy needs by using various renewable based energy mixes are presented in two chapters these two chapters discuss the problem of conversion efficiency at the level of components and systems aiming at giving value to the variable renewable energy sources in producing thermal and electric energy the concept is discussed further in a chapter on advanced solutions for water re use and recycling wastes as second raw materials the need for new strategies and implementation tools for education and training is addressed in the final chapter as part of the nzeb concept towards sustainable communities the sub chapters of the book were openly presented during the 4th edition of the conference for sustainable energy held 6 8 november 2014 and organized by the r d centre renewable energy systems and recycling at the transilvania university of brasov romania this event was developed under the patronage of the international federation for the promotion of mechanism and machine science iftomm through the technical committee sustainable energy systems
